PROFESSIONAL SUMMARY

Aspiring Software Developer currently training at Uncommon.org, with hands-on experience in building web applications using React.js, Node.js, Express.js, PostgreSQL, and Supabase. Passionate about learning new technologies, solving real-world problems, and writing clean, efficient code. A fast learner with strong problem-solving skills, committed to continuous growth and contributing to innovative software solutions.

EDUCATION

Software Development & Product Design
Uncommon.org — Mufakose Innovation Hub, Zimbabwe
2026

Developing practical skills in software development, UI/UX design, databases, and web application development through hands-on projects and technical training.

EXPERIENCE

Developed web applications and REST APIs using React, JavaScript, Node.js, Express, Python, Django, PostgreSQL, and Supabase. Built database-driven projects, tested APIs with Postman, and gained practical experience in debugging, GitHub, and responsive UI development.

CERTIFICATION & SEMINARS

- Python Crash Course — Coursera & Google
- Introduction to Software Engineering
- STEAM in Heels — Seminar, 2026

VOLUNTEERING EXPERIENCE

- Youth Coding Volunteer — Supported young people in developing basic coding and digital skills.
- Orphanage Volunteer — Assisted with community support activities and contributed to the wellbeing and development of children in need.

SKILLS

- Frontend: React.js, JavaScript, HTML, CSS, Responsive Design
- Backend: Node.js, Express.js, Python, Django
- Databases: PostgreSQL, Supabase, SQL, CRUD
- APIs: REST APIs, Postman, API Testing
- Tools: Git, GitHub, VS Code, Figma
- Soft Skills: Problem Solving, Debugging, Teamwork, Communication
